

Cognoscible

Significance of the formulation

- Prevents Oxidative Damage
- Boost Memory
- Micronutrients for the Brain

Supplement facts

- N Acetyl Cysteine- 600mg
- Co-Q10- 200mg
- L-Tryptophan- 4mg
- L-Arginine- 40mg

Why should it be taken?

Oxidative stress may trigger cell cycle reentry in some terminally differentiated neurons, As an antioxidant, CoQ10 has been demonstrated to be potentially used as a treatment in diseases that have oxidative stress.

NAC serves as a precursor to glutathione, an antioxidant. Glutathione acts as a nootropic, enhancing cognition, memory, and preventing neurodegenerative conditions including Alzheimer's and dementia.

Essential for the normal functioning of the nervous system and cognitive function, Vitamin B6 and vitamin B12 is involved mainly in the processes of cell division and new cell formation (e.g. blood cells, mucosa)
